## on cosmic reality

at the beginning of time ...

there was nothing but dark and empty space

and in this nothingness ...

there was developing an entity

dreaming of worlds of wisdom ...

wanting light !

and so it came to be !

infinitely empty space

and all this universe

are having the same amount of total energy

so ...

any creator does not have to create energy  
he just does want to have a universe  
and it will happen

because a universe is part positive energy  
and part negative energy

so ...

it totals up mathematically to zero

on time ....

what was at the beginning of time ?

to know what to do today

we have to know what was and why is every thing here now  
at the beginning of time > there was only emptiness every where !

why ? >

because at the beginning there could only be nothing .....

where would it have come from ?

but space has been there all ways !

it was definitely not created at the big bang .....

because ? >

what would have been there before ?

but empty space >>>>

now some one will come up and say >

there is no beginning and no end of time !

and surely >

the beginning of time was with out a start > endlessly !

and the end of time will be with out an end >

infinitely !

why is the universe expanding ever more today ?

because all those trillion suns

are pushing themselves away from each other

through their radiation

and if all those suns are burned out some day

there will be no more drive to push them  
away from each other  
and so the gravity will prevail  
and they will for almost an eternity  
be falling together  
to creating the next big bang

## on cosmic religion

the universe  
needs sapiens to perceive  
to love and to protect creation

religion does not mean praying  
and asking god for winning the lottery  
god is simply the entity  
having had the wish to create  
creation

needing homo sapiens  
to appreciate this creation

religion and science  
have the same answers  
if both are valid

every citizen of this universe  
has to know about creation  
has to honor this creation

and has to be guarding this creation  
as his first priority

authentic sapient life can only be  
if cosmic reality being made public  
to all cosmic citizens  
there fore the only dogma  
in a cosmic religion  
being cosmic reality itself

so ... what is the only valid religion ?

resulting out of the above ....

use the universe ... and any world

only as defined by creation !

and consequently from this derive >

all commandments >

all fundamental rights from !

as well as the requirement for peace !

all must recognize the cosmic reality

and then ... guarantee all this !

meaning an accountable life

providing for all ...

no mirage > without vanity !

without physical force > without taboos ...

all must be addressable !

meaning capable of >

being a responsible citizen ...

on government

inhumane needs ... determine inhumane consciousness  
so only humane need can bring out a humane consciousness

it can not be about  
that decisions are made  
according to the majority principle  
because this is more then wrong  
as the state of this world is proving  
as the history is prove off  
  
but we have to find the right decision  
and that's just an argumentocracy  
where the best argumentation  
the last one  
which is enforceable for everyone  
because no one can find a better one

or do you have a better idea ?

since we can not be free to destroy any world  
we have to make sure ... no one will get this evil idea !  
so we need an argumentocracy

where every one has a voice bringing fore ward  
any solution ... any violation of cosmic law  
and if no one can bring a better argument fore ward  
then the last will be used as for all binding

or is there a better solution possible ?

## the planet of the fata morgana

for all those centuries now  
we have never seen any wisdom developing  
no satisfaction achieved any where  
  
where the present generation  
are the infinite selection of stupidity  
where all those " scientists "  
greater idiots  
  
as all the neanderthals combined  
  
where all those stone age tribes  
where all like a genius  
  
where any dark age religion today  
is the only dim light shining !  
  
since any one refusing any higher order  
can only be called insane  
  
where any one calling  
for freedom to extinguish all life  
should simply be put away  
  
and informed so long  
till he can see the light of wisdom  
until he will not be committing suicide for all

**on the planet ...**  
**of the billion fata morganas**

there can be no real solution  
no hope it all

because every one is just striving  
for being a better problem  
a better dying

" I dearly need a bigger car  
or I will be left out on the race  
to ending all life on this planet  
of the billion fata morganas

or ... I need my palace renovated  
to having more heating oil delivered  
to be dying in peace there

or ... I need a zero energy palace  
then I can be bragging about ...

that the CO2 in my air  
is getting every day higher !

or ... if I do not make enough loot  
to buying the most expensive whore  
on the planet of the idiots

I will not be getting into this black house  
to be becoming the biggest fairy teller  
in the history

of the United Fairy Tellers "

or I will have to becoming an entertainer  
writing the greatest fairy tales of all times

or becoming the greatest " scientists "

or playing the greatest games of all times  
to be keeping up this insanity  
till the day every one dies

so what do we need ?  
certainly ... not all those fata morganas  
but a real aspiration of a paradise  
for all ... for all time !

so we need no democracy  
where every one can vote  
in a free and secret election  
with the help of all those other idiots  
on any fata morgana becoming law

but a real solution for every one !  
and how to we work out this solution ?

simply ...  
we are asking every one > to tell us ...  
what would save all of planet earth  
and be the best solution ?  
for every one ...

and this will be discussed  
and proven by all those billions

and after having been proven  
to being the real solution  
will it apply for all

[www.argumentocracy.org](http://www.argumentocracy.org)

now ... I hear all  
those billions screaming >

" it will never work ! "

and you are certainly right  
it will never work what you are doing  
and if you are not becoming wise  
you will be dying for sure !

because there will be a second venus coming up  
where all the water being steaming hot  
no oxygen left ... because all

has been oxidized to burning every thing  
being able to ...

through what you are calling your success  
in your insanity

if we ... the trillion homo sapiens  
would let you go on with this insanity  
you are so cherishing

[www.galactic.foundation](http://www.galactic.foundation)

and ... we are having stone age examples  
of a responsible life ... becoming of interest  
to the many knowing what all those calling a success  
being simply a total failure ...  
an infinite stupidity

like the amish ... the menonites ...  
and we need a super moderne utopia version  
of this called simply >>>

" the homo sapiens "

we are ... homo sapiens

documenting a day in the life of >  
first planet < in the year 154 after creation  
of the first human settlement in this universe .....

note .... a responsible life style ...  
can not only be the biggest fun in the universe ....  
but being the only life style ... working endlessly ....

because every one can be convinced of what he is doing !  
forever .....

since we are homo sapiens ...  
we have of course no democracy  
certainly no secret and free voting

but of course an argumentocracy  
meaning ... where is the best solution  
is used by all

because only the best solution  
can be shaping our future for all eternity  
where our universe and all worlds  
are preserved to eternity

and should someone  
bring forward a scientifically provable  
better solution > then this will be used

of course we have no theocracy  
even though it is our entire existence  
to conserve this universe and all its people  
so ... we live according to a religion

there is no humanity with power positions  
but an alienating hierarchy

and alienation creates automatically  
and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism

since this only can be the end  
of every thing

we create everything that we need  
so .... that we have everything  
and of course we can keep it  
for millions of years ...

we are looking at > first planet  
at our very right > the sun

below left

what is looking like a tiny moon  
being the space ship  
watching out for the safety .....

parked in geo stationary orbit over the settlement  
with only the sensor doors open !

we are seeing no lites an the planet be low !  
no sign of any settlement ... or manufacturing  
the only thing to indicating any population as of now

are the out rigger sail boats beached  
the solar electric rovers > the river boats ....  
but there is an emergency plan ready  
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river falls  
is not operating

the lites for orientation in all the housing  
and control centers is being supplied  
by tiny local thermo nuclear power plants

from the former uses on the roboter ships  
and planet rovers ....

there is no other hind of any human population  
any where from here ....

naturally ... no broadcasting  
of any radio trans mission of this world  
can be received at any distance !

as all communication is done  
by quanta communicators  
low power short distance equipment  
or through under ground lines ....

we are now in the main command room  
the display showing >

automatic surveillance mode on  
no space sensors > no space ships  
now asteroid on coordinates

**6 39 15.70 > 2 16 22.17**

received quanta message from planet two  
but no frequency messages >  
since automatic mode started !

the crew sleeping  
like all residents be low on the planet ....

we are now going toward the first planet  
seeing a robot ship > monitoring the settlement  
seeing a predator going toward it ....

notifying the nearest planet rover automatically  
at the planet surface

there the animal repulsion system is activated  
and the tiger is making a U turn and going off ....

we are now in a cave > at the rivers bank  
seeing two children in the dawn of the new day !  
the increasing light being brought in their room  
by an automated mirror from the rising sun

the led clock showing 5 45 .... the date 05 03 0154  
at this moment

the boy is waking up and looking what time  
and saying aloud

" having to be getting up soon ! "

when his sister is opening her eyes too .....

now we are in the kitchen of the cave  
where the boy is telling his parents there >  
that he does not want to go to school today

but be playing with his friends at the river ....  
his mom asking him >

what they are having in school today ?  
and he startles ....

because he was to show off  
his experiment of mixing colors today !

so ... he thinks

he will be going to school today after all ...  
to be showing off > an electric motor

where a disk of all colors in sectors ....  
will be becoming an off white once turning ...

the mother saying  
we are having

commanders day 100th anniversary

coming up in 3 days

then we will all be having off ...  
and dancing and singing together all day long  
do you remember what he has been doing for us ?

yes ... says the girl

he was the founder of our religion  
he and his crew of a space ship

put the tyrant and his bandits of the empire  
on a planet to die ...

while having time to realize  
all their wrong doing ...

and settled this world for us  
free of any wrong doings ....

I am > because we all are !  
and we can be > because I can be .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive  
all commandments

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without conceit !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of

being a responsible citizen ...

then he went off in his spirit later on  
leaving his body behind here

to be helping a native population living  
after our religion in some other galaxy !  
and this day we are celebrating  
what he having done for us ....

all the other relatives are coming in now ...  
many being over a hundred years old

they are fixing breakfast now  
from the seeds

they have been collecting days ahead  
and rolling them out

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school >

half of the adults  
are going collecting lunch ingredients  
the others going to their work ....  
since this being the first settlement ...

the galactic counsel being here  
and the co ordination

of all the things to being done

the counsel members are considering  
the danger from the asteroid  
sending a robot ship to it

to making star dust out of it  
to fertilizing our planet !

the message from planet two  
will be considered now ...

*to our dear galactic counsel members*

*as you know ....*

*we have arrived at our new home month ago !  
taking inventory of all plants and animals  
pathogens and toxins ...*

*atmospheric components being confirmed ...  
animal population is in a very early state !*

*having selected a location for the new settlement !  
like our first> at first planet ... at a river bank  
in a desert within the tropics >*

*since the sun shining less than  
at first planet > we will be limiting the settlements  
to the near equator ...*

*there are limited places for caves ... so  
we will later be building*

*partially submerged housing there*

*since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...*

*we will be all moving into are new housing now*

*to be celebrating commanders day ...  
all together on our new future planet !*

*leaving the space ship two > at automatic command mode ...*

*our dearest regards to all of you  
for having made this possible ....*

*commander ss2*

the counsel members compose a reply and congratulations >  
for the successful start of a new settlement ....  
on the second planet ...

there while in a another galaxy > the spirit of the commander !  
still working on an evolution to a higher race > there !

the harbor being down river >  
the space craft factory being at the hydro electric plant  
up the river ...

right here > many service work shops for all the technology used  
note books having direct led screens ... using less than 1 watt >  
the rest having only 100 mhz > and the OS being optimized  
as well as all the applications for this ....

there is only one model for each use >  
and that being build to last a 1000 years ....

then at 11 they all coming together again to eating lunch  
under the trees by the river ...

then at 1 pm they are going to take place  
at the workers who are now hunting  
and collecting for diner and the next day until 5 pm

then eating together with their families ...

after they are just resting and talking things over  
so no problems are unsolved ...

till at about mid night > they are having a snack  
to be sleeping again till the morning ....

there is no hierarchy ...

because this would be an alienation  
and be a coming problem for all !

everything must be transparent >  
everything must be understood by all !

only in an emergency >

there is a command structure > thus eg in a spaceship  
at a sea crossing > so if there is no time for talks !

but even then all orders ... spoken about in retrospect >  
and reviewed by all ... to find the better answer !

just as there is no democracy or theocracy ...  
since only ... if all can agree > the answer will be right !

and only if there is no time there will be >

temporary solutions used ....  
till a valid solution is found !

and should any individual or a group  
not be responsible for our universe >

not willing to be responsive ...  
then this necessity will be carried forward with all force !

while there is every freedom to act on your own >  
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !  
because as soon as anybody is excluded

he will be feeling alienated ....  
then arises >>> a criminal association ...

and each organized crime on a world >  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing >  
and what effect this is having on eternity ...

and now ... **a billion years later** ...

our commanders idea still working fine !  
the only difference >

we are having populated almost a million galaxies  
where there are a million planets each ... having a few millions ....

so we are a trillion strong >

but still there is no where any war >  
no force necessary ...

since we solve any problem every day ...

so our galactic nation > note singular !

because we are all united to keep things just this way ....  
meaning there is no competition for any thing worthless !

destructive ....

we are using still the same concept technology  
no need for a million different printers > pcs

but to having total star peace guarantied !

so now ... we are having to look at this very great problem  
many millions of lite years away in what those problems there

call their milky way ....

so we are now in geostationary orbit over this planet earth !  
this being like a cold shower in the morning ....

already from this distance >  
because we are seeing millions of lites >

on the dark side of the planet !  
because these poor things need to be having  
all this diversion going on

till they are falling asleep in their bed  
while watching television !

our spectrum analyzers having millions of signals  
already received since from very far away ....

we are now checking out the planets environment  
seeing all this floating garbage drifting in the oceans  
checking water quality > contaminated with heavy metals

while predators are going strong !!!  
and are under conservation ...

the smaller fish are being depleted .....  
insanity where ever we are looking !

because these democracies >  
are having those in power

having the greatest insane ideas >  
every where waste > frustration

entertainment > diversion > illness >  
speeding from one idiocracy to the next !

we can not stand this any longer ....  
we are having to call the **galactic pest control** ?

because nowhere >  
can those natives even discuss their problems ...  
let alone solve them !

and we see just clearly for our very eyes >  
what those insane will be doing  
in a million years ....

wasting all this galaxy and then beyond .....

we need to realize >  
that .... **this here ... is the planet of satan !**

where the individual either will ...  
taking care of his psychopathic interests >  
at the cost of this world >

meaning this environment and his people  
or he must believe that everything will be >>>

well at the end !!!  
otherwise he will not be desirable anywhere  
because shunned all over !

because the aspiration of this satan  
is definitely the enslavement of this population  
for the purposes of the destruction of this planet >  
and this is not the first time !

around 75 million years ago > this project satan has been started  
and another world was destroyed and many millions  
made to evil zombies of this satan !

these souls then came here > and created this planet of satan!  
meaning incarnated in these chimpanzees >  
and their mischief started again ...

only if we realize this reality > in everything we do > retain >  
we can keep the evil of using us > as the zombies for his envy !  
meaning use us for his purposes > meaning destruct gods creation

because this evil > is just envious of gods success !  
he can not bear this creation ...

as well as many of this population > can not stand this creation !  
because otherwise they would not deny its existence ....  
and without any belief in god

going down the road of destruction  
or all of these co operating "religions">  
meaning this hypocritical ...

the ones > continuously  
as zombies just helping this evil satan ...

because not heeding this reality !

**money .... can only be the biggest problem !**

just think of ...

you would not have to get it every which way you could !?  
and then you could not go to a car dealer and buying one of those  
biggest problems you could think of > and then you could not  
get to a gas station !!!

and wasting all the hydro carbons

and in 10 years > this contraption would be needing a replacement !  
there while you could be getting a solar electric car > lasting a millennia !  
wasting no resources > and making a lot more fun to drive it !

if only your government would allow you to be driving this slow  
and you could be affording to buy one of those

on the contrary > if there is no money >  
and you do not need to be driving around all over >  
and your work place is right next door ....

and all of the things you need !  
are right there >

being brought to you by a hydro electric power train  
by a solar voltaic river boat >

or being right there produced !

what a wonderful world this would be  
where every one would be doing things >  
because they want to be doing them !

because they are having all the time >  
to making every thing lasting for ever ....

and they are not having to making them to sell in competition  
but just giving them away on any one appreciating them

everyone must answer for themselves >

whether he is working for his successful dying !  
for example > in the now economy be a shame of himself ...

or if he is working on a future ....  
for example.... guaranteeing human dignity ...  
and long term safety !

and everyone must bear the consequences  
for his doings .....

he who believes ...

that there be a difference in principal  
between the past and the today's nations  
or between all these nations here off ....

is having a thinking disorder !

because everywhere today and in the past >  
people in a group ..... are forced into line !  
and these groups forced to a nations line .....

and then all the nations ... to see how a climate is flipping !  
because nowhere > is the universal law in effect ....

meaning the law of this universe > the creation of this !  
so this whole idea of a sovereignty > being wrong .....

because no individual can be free > about his aspirations >  
except his personal preferences

*so .... " I prefer now to put some green garb on or maybe .... "*

neither ... can any nation decide > whether it >  
will be wasting the planetary resources now ....

or .... can any world decide  
to have all these environmental disasters ....  
nor can this galaxy decide > whether or what law she to have ....

since everything should be responsible  
therefore understandable > meaning humane !

so there can in principle >  
be no animals in a human settlement !  
that is simply unacceptable>

because they can > never understand >  
that it is not humane > to behave like an animal !

or a bug ....

on planet earth

homo sapiens?

mindless destruction !

who mean

a state would be sovereign

for example

the planetary resources can be squandered

to glorify a democracy

be flipping the climate?

or there could be a freedom of religion

so the citizen could believe what he wants !

so finish off his world ?

or the citizens could walk around

with a predator animal pack

guarding humans ?

that is absurd !

that can never work

that is why it does not work

that is why no one knows

what could be done ?

with this pest ...

which must be going under state supervision !

the problem seeming ...

that all those are perpetually

in puberty

and because this having proofing to them

that their parents are incapable

of being responsible

they are stuck into

his phase of this development

so how do you get them out of it ?

if all this trauma

is much to painful for them

so tending to being avoided

and instead wanting love and fun

like any infantile

any small baby

so what would any woman want ?  
but to lying in front of the fire place  
with her big daddioo having made billions  
in realty  
watching some flick from hollywood  
taking flight from reality

this population is not any hope of our universe  
but a danger to

not even a potential interest in knowledge  
authentic communication or solutions  
but ever more propaganda  
for their satanic state  
there for all those criminals  
can not tolerate humans  
or to guarantee their human rights  
but all their existence  
their very quality  
their success  
>>> no homo sapiens !  
just this selection of criminals ....

all those billions  
have no taste what so ever  
may not have any taste it all !  
because their very selection  
is to be guarding all those criminal tastes

all those will never learn any thing from history  
because they want to stay in power  
and those not staying in power  
will never change any thing  
but will be changed

the destiny of planet earth is determined  
through the fact of this being  
the planet of satan  
and all those billions  
are zombies of satan  
being just jealous of creation  
so he can just waste creation  
to satisfy this emotion  
and we ... the trillion homo sapiens  
the guardians of creation  
can do nothing else but to save creation  
by just eliminating this population

because they are not learning from their history  
or from us > because they have no free will  
so what do you think will happen ?

[galactic foundation](#)

on satanic eve

and now ...  
we will be looking at  
the source of all this evil >

how can a planetary population ?  
be this insane > to waste their very future  
in a hundred years .... ?

being not even able to talk about  
this driven population ...  
about their insanity

let us start with what every one can see

in every t v show ... in all this propaganda  
in every news paper or internet >

we are seeing satanic eve  
being not even able to talk about  
why she is not willing to even let humans  
talk about any solution

about why she is so loving towards animals  
especially predators !

why she is so loving artificiality  
meaning ... all this no sense at all art  
all this virtual reality

why there is every citizen talking about  
saving jobs ???

when no one should be talking about them  
but to work on a humane paradise !  
an a meaningful life

a responsible way of life !

have you ever tried to make any sense out of ?  
what satanic eve is even saying ?

it is making no sense it all !

so let us look at what is happening  
when her son is being born

what will she do ?

she will be training him to being  
a trained predator

like the one with the dog tag on !  
loving her ....

just waiting for her every insane wishes  
guarding her till death

she will not let him say one word on reality  
on this tormenting him to his

spiritual death in no time it all !

and what will she do with her husband ?  
will she want to be sailing off to paradise  
any responsible living it all ?

or will she be buying all this waste every day  
wanting all this flying to hell  
her home ...

to satans home !

so ... this being the planet of satan  
and every one of those billions is a satanic eve  
or a satanic adam > wasting all humans  
bombing every hope to their  
very death

where only the freedom  
to waste every thing is wanted

where no human will be able to exist  
because all this is not honorable

but a shame to all our universe

have you any idea now ?  
why we have no argumentocracy here on earth !

[argumentocracy](#)

why there is no solution possible  
why only problems are getting better every day !

because every one is a conceited idiot  
thinking about nothing but their vanity ....

for as long as ... all those billions  
are striving just for their fata morgana  
there will be no authentic human paradise  
just death ...

## **why satan ?**

what has been causing all this madness ?  
why are they all such negative energies ?  
why can not they even get anything done  
let alone have a positive effect ?  
like impressing any homo sapiens ?  
or value any such ?

why are they all ... not even capable of dialogue  
not even beginning to learn any wisdom ?

because after the time ... after our creator  
which is called god here on

the entity  
could dream of worlds of wisdom  
in this endless darkness  
in this emptiness

and that is why he created this universe  
from nothing

and then an opposite entity  
envious ... of this positive achievement  
of this success

and since that time ... he can not dream of anything else  
but the destruction of all this success

## **billion monsters**

**with their fata morgana  
guaranteed to bring death  
bred by the satanic state**

**to appease their envy  
on everything intelligent life  
end in this universe  
as the only task  
as a dying goal**

**where no one has understanding  
can do with**

**since it is the madness of envy**

when everything happens  
serving all death

where there is no dialogue  
because reality cannot be touched  
since all their crazyness  
would end

so this whole appearance  
of this sparkling water  
over there

that cannot be there at all  
that can never be achieved  
can

because everything is just a sham

so the reality  
to understand  
would

then abolish all of this  
not just senseless

but the surest death in this universe

since these billions  
guaranteed not to be instructable  
may be

all your qualifications  
all your education  
this is their career

this total loss of consciousness

## if a satanic state

can do make probaganda with  
a free democratic basic order

then it can only be a disaster  
because then we have a factual anarchy  
a contempt for people > a 2nd venus  
because it cannot be competitive  
everyone do what they want  
anyone can do that

think for yourself!

so he could think ...  
something that is impossible in principle  
otherwise he can not be there  
in this mass of madness

so this satanic state is breeding  
the non thinking ... ego idiot

in principle not  
worthy of a person

so it guarantees  
violating any human rights

so we have

an organized mass of criminals here  
where every one will serve this satanic state !  
or he can not participate it all ...

## the argumentocracy

where everyone has a voice  
not the tyranny of the crowd  
not the tyranny of a tyrant

the argumentocracy ...  
In principle not just the only one  
to be right decision making

but she also forms with her argumento culture  
the best citizen

from this follows

that only the argumentocracy  
the only human form of government can be  
like us ... the trillion homo sapiens in the universe  
found out for a billion years  
and work through that  
this is confirmed

that everyone can understand

there

when a decision making  
to go from anything else  
how to find the best solution

if a party assumes it  
if every voter assumes it

whether his solution

also politically feasible

then we have the catastrophes ...

then we have climate right ...  
resources squandered rights  
especially frustrated voters ...  
annoyed citizens

the higher their intelligence ...  
there is more and more evidence of ...  
that they can not achieve anything  
because they have no voice  
in this democracy !

because even the inventors of democracy ...  
the ancient greeks ...

at that time already some knew

that their invention  
has this principal error  
that this will cause a catastrophe

because we are going to look at democracy  
so this is not just a fundamental catastrophe

but select this  
yes ... educate the catastrophe potential of citizens  
because in a democracy ...

turn everything around the earth  
to come to power with the majority  
and who can think ?

that these ... the right ...  
the best decision makers ?

that is just against any scientific practice !

so democracy is not scientifically based  
not at all scientifically proven

because every party in a democracy ... yes a party program  
that promotes the interests of ... a particular party electorate  
creates again to come to power from this

but

we can not tolerate any power !

because everything has to be understandable  
that is the human feature against the animals  
they always think only about roguery  
these always think of the majority  
they always think about what is possible  
thus ... the law of this law is the law  
for a democracy ...

the 3rd Reich was one too !  
the biggest catastrophe of all time ...

so we need a possibility ... not depending on the mass ...  
making the right decisions ...

and to introduce everyone  
until all no longer different  
only accept the best solution  
because they just ...

no better arguments to bring forward

do you have a better idea?

## **already the word solution ...**

will bring all these paranoid pests in panic  
because as soon as someone introduces a real solution  
he has no chance  
to be acceptable anywhere in this world

the amish have the idea ....  
that too much theory is the end of everything  
but some do not always go along with this  
  
so this world ends anyway  
they do not see that !  
  
because an uncle albert thinking my theory is everything  
and he does not prevent world wars ... either  
and even the atom bombs he delivers  
so to make everything worse  
  
that is not in a scripture  
so not holding onto a Bible eg  
definitely will bring the end  
  
that is without a generally binding order  
in any case > a world ends ...  
people end  
  
So what is the solution?  
of course ... that everyone has to see ...  
that without a binding order >  
nothing will be preserved  
  
you can not believe ... what you want  
you can never do anything ... what you could !  
  
neither as an individual ... nor as a mass!

so we need an order ...  
that prevents this ...  
  
who saves this world  
dictate this !  
  
no climate tilting rights  
no resources to squander rights  
no contamination rights  
no butcher rights

in the hospital  
we can not compete with any parties  
let go on this world ... where one  
compete with the other  
talk about ... "consumer prices down  
producer prices up "  
that only produces idiots  
because they have a platform for their stupidity  
we need an argumentocracy  
that makes every good idea a success  
and any stupidity to failure  
so we do not need any parties  
certainly no competing!  
and how do we do that ...  
we have to organize ourselves !

## the argumentocracy

just works according to the principle  
of the best solution  
so a solution to a problem will be advertised  
then all citizens in a city will bring their solution forward !  
when no one can say anything better  
this best solution will be presented in its county  
until there the best ... of the best solutions will be taken  
then to the state government  
then to the federal ....  
then we have the best of all solutions  
which of course ... has to be scientifically proven  
be in the interest of all citizens  
no special interests  
because a democracy divides a nation  
because the argumentocracy unites all

do you have a better idea ?

# this kind of solution

will as well work in science  
in the industry ... in internet forums  
the stupidity of democracy can never work in politics

or any where else  
this greek catastrophe  
that even millennia ago  
many greek philosophers saw as a catastrophe  
then

## tyranny ...

this competitive insane anarchic  
can only be the end !  
because no homo sapiens are working  
for their very end ... as already happened  
no human can do this  
to all these refugees  
to lure them from the responsibility  
through all this consumption  
to fuel all this consumption  
to all this through propaganda and advertising  
fooled folks write about  
so creating all this work  
because I can not even find a note book  
I would want to buy ... that is why I always using just garbage  
get it back to work ... pc ... one out of 10  
free programs ... only  
because I will never buy such mischief  
so a note book ... a tablet so thin and light  
that it is not suitable to work with  
not repairable  
so we need to be against the paradigm  
everything has to last as long as possible  
and only one model for every application  
and then you need spare parts  
available for a million years  
but this is enough  
free beings must decide

to co-operate ... for the good of their future  
not because everyone tasting his delusion  
to the end of all

that already happened  
because no one competes for 8 hours  
to work every day ... let alone  
from this full employment  
this fully enslaved  
to rave about

so a party has to come  
the goals have ... to fully removable  
no amount of delusional thought

and why is not it ?  
of course because of the woman ... the mother  
only their delusion sensible

only choose this one ... your tyranny  
to realize the end of the world ...

and as a result ... every child already  
one year old... to being the zombie of this monster

and therefore only an argumentocracy  
a shutdown of the lanterns ...  
a broadcast end ...

a power off from 18 to 6 in the morning  
invite to a reflection

and ending all these entanglements  
by developing work

and then be this world  
and all the following already been saved

like with us ...  
the trillion homo sapiens today  
for a billion years

where our first planet  
since that time

not only still living  
but better

when it was a billion years ago

not a single meteorite  
has ever hit our planet  
not a single flood

above all ... everyone is satisfied  
there is no possibility  
for any crime  
for any war

what for ?

and of course in every million  
x million worlds in this universe

already a giordano bruno  
dreaming over 400 years ago

and what did this infallible tyrant do with him ?

# **the norm**

with all these paranoid problems  
insist ... ignore any solution by ..  
to defend ... to deny

any entertainment ... any reason gifted  
ignore as long as ignore ...  
until he gives up the ghost

because their entire existence exists in it  
your problems ... your problem  
to have glorified

her whole problem existence  
to maintain

## **an introduction to the religion and history of the galactic nation**

**the homo sapiens**

**and the planet of the fata morgana**

this is a documentary  
.... from a visitor > from a far away galaxy >  
coming to us 26 millennia ago > in his spirit only ....  
having now incarnated in our own biology >  
to be telling us the story  
of his own civilization

since we are homo sapiens ...  
we have of course no democracy  
certainly no secret and free voting  
  
but of course an argumentocracy  
meaning ... where is the best solution  
is used by all  
  
because only the best solution  
can be shaping our future for all eternity  
  
where our universe and all worlds  
  
are preserved to eternity  
  
and should someone  
bring forward a scientifically provable  
better solution > then this will be used  
  
of course we have no theocracy  
  
even though it is our entire existence  
  
to conserve this universe and all its people  
so ... we live according to a religion  
  
there is no humanity with power positions  
but an alienating hierarchy  
  
and alienation creates automatically

and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism  
since this only can be the end  
of every thing

we create everything that we need  
so .... that we have everything  
and of course we can keep it  
for millions of years ...

## prolog

on this planet ...

it is like a fata morgana !  
you do not know what you even could do ...  
because there is sparkling water in front of here

but actually you know >  
that there is no water there !  
but what else can a man do?

just to continue ...  
because here at this point >  
there is surely nothing to drink !

and there in front > there is no hope !  
only at the end your dead by boredom ...

because this world is becoming the second venus  
so only boiling water ... when ever ....

because there is not even  
a consciousness somewhere ....

no dialogue or public truth

only all these thirsty  
trying with their last strength  
reaching the water not being ...  
there!

### the visitor

already from space coming ....  
any intelligent visitor ... will see >

that this planetary population can be no homo sapiens !

just looking at the illumination of the dark side of the planet !  
and this mass of radio transmissions for broadcasting .... entertainment

when every one should be resting !

because every human needs contemplation ....  
otherwise he will be > becoming insane !

then ... when the visitor .... closing in .... and all this garbage ..... to be seen  
he can only turn away disgusted >

and when we are coming down on this ... "earth" .... then ...  
every one is running from one drug of entertainment >  
to the next > drug of food .....

or this guarding the peoples humanity >>>  
with wolves > with state licensing dog tags !

or just looking at those ideas > this population has  
about an extra terrestrial civilization >

no longer ... any ..... rest period .... at all  
just endless fun !

or the "search" of this earthlies >  
for extra terrestrials ... via radio waves .....

then we know for sure  
that this can only be simply a mass of insanity

and should more evidence of this be needed >  
then we need just to look at this animal love !

when every homo sapiens is knowing >  
that animals never want to live in human dignity ...

this is a very unusual superiority >  
of the homo sapiens in this universe ....

consequently they are > the only such > long enough there >

not just to settle one galaxy ....

but the whole universe !

### documenting a day in the life

of > first planet < in the year 154 after creation >  
of the first human settlement in this universe .....

note .... a responsible life style ...  
can not only be the biggest fun in the universe ....  
but being the only life style ... working endlessly ....

because every one can be convinced of what he should be doing !  
forever .....

we are looking at > first planet > at our very right >  
our sun > below left > what is looking like a tiny moon  
being the space ship > watching out for the safety .....  
parked in geo stationary orbit over the settlement >  
with only the sensor doors open !

we are seeing no lights an the planet be low !  
no sign of any settlement ... or manufacturing >  
the only thing to indicating any population as of now >  
are the out rigger sail boats beached > the solar electric rovers >  
the solar powered river boats ....

but there is an emergency plan ready  
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river fall is not operating  
the lights for orientation in all the housing and control centers  
is being supplied by tiny local thermo nuclear power plants  
from the former uses on the robot ships  
and planet rovers ....

there is no other hind of any human population any where from here ....

naturally ... no broadcasting of any radio transmission of this world  
can be received at any distance !

as all communication is done > by quanta communicators >  
low power short distance equipment or through under ground lines ....

we are now in the main command room >  
the display showing >>> automatic surveillance mode on >  
no space sensors > no space ships >

now asteroid on coordinates **6 39 15.70 > 2 16 22.17 >**

received quanta message from planet two >  
but no frequency messages >>>

since automatic mode started !

the crew sleeping > like all residents be low on the planet ....

we are now going toward the first planet > seeing a robot ship >  
monitoring the settlement > seeing a predator going toward it ....  
notifying the nearest planet rover automatically at the planet surface  
there the animal repulsion system is activated >  
and the tiger is making a U turn and going off

we are now in a cave > at the rivers bank >  
seeing two children in the dawn of the new day !  
the increasing light being brought in their room  
by an automated mirror from the rising sun >

the led clock showing 5 45 .... the date 05 03 000 154 > at this moment >  
the boy is waking up and looking what time and saying aloud >  
will to be getting up soon !

when his sister is opening her eyes too .....

now we are in the kitchen of the cave >  
where the boy is telling his parents there >>>  
that he does not want to go to school today >  
but be playing with his friends at the river ....  
his mom asking him >

what they are having in school today ?  
and he startles ....

because he was to show off his experiment of mixing colors today !  
so ... he thinks > he will be going to school today after all ...  
to be showing off >

an electric motor  
where a disk of all colors in sectors ....  
will be becoming an off white once turning ...

the mother saying > we are having >  
commanders day 100 th anniversary coming up in 3 days  
then we will all be having off ...

and dancing and singing together all day long  
do you remember what he has done for us ?

yes ... says the girl >  
he was the founder of our religion >  
he and his crew of a space ship

put the tyrant and his bandits of the empire on a planet to die ...  
while having time to realize all their wrong doing ...

and settled this world for us >  
free of any wrong doing ....

I am > because we all are !  
and we can be > because I can be .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without any delusion !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

then he went off in his spirit later on >  
leaving his body behind here >

to be helping a native population  
living after our religion in some other galaxy !  
and this day we are celebrating >  
what he having done for us ....

all their other relatives are coming in now ...  
many being over a hundred years old !

they are fixing breakfast now >  
from the seeds they have been collecting days ahead  
and rolling them out >

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school >  
half of the adults are going collecting lunch ingredients  
the others going to their work ....

since this being the first settlement ...  
the galactic council being here

and the co ordination of all the things to being done >

the council members  
are considering the danger from the asteroid >  
sending a robot ship to it > to making star dust out of it >  
to fertilizing our planet !

the message from planet two will be considered now ...

*to our dear galactic counsel members*

*as you know ....*

*we have arrived at our new home month ago !  
taking inventory of all plants and animals  
pathogens and toxins ...*

*atmospheric components being confirmed ...  
animal population is in a very early state !*

*having selected a location for the new settlement !  
like our first> at first planet ... at a river bank  
in a desert within the tropics >*

*since the sun shining less than  
at first planet > we will be limiting the settlements  
to the near equator ...*

*there are limited places for caves ... so >  
we will later be building partially submerged housing there >  
since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...*

*we will be all moving into our new housing now >*

*to be celebrating commanders day ...  
all together on our new future planet !*

*leaving the space ship two > at automatic command mode ...*

*our dearest regards to all of you >  
for having made this possible ....*

the council members compose a reply and congratulations >  
for the successful start of a new settlement ....  
on the second planet ...

there while in a another galaxy >  
the spirit of the commander !

still working on the evolution to a higher race >  
there !

the harbor being down river >  
the space craft factory being at the hydro electric plant  
up the river ... right here >

many service work shops for all the technology used  
note books having direct led screens ...  
every pixel having one triple led  
using less than 1 watt >

the rest having only 100 mhz >  
and the OS being optimized

as well as all the applications for this ....

there is only one model for each use >  
and that being build to last a 1000 years ....

then at 11 they all coming together again to eating lunch  
under the trees by the river ...

then at 1 pm they are going  
to take place at the workers who are now hunting  
and collecting for diner and the next day until 5 pm

then eating together with their families ...  
after they are just resting and talking things over  
so no problems are unsolved ... till at about mid night >  
they are having a snack

to be sleeping again till the morning ....

## there is no hierarchy ...

because this would be an alienation  
and be a coming problem for all !

everything must be transparent >  
everything must be understood by all !  
only in an emergency > there is a command structure >  
thus > in a spaceship > at a sea crossing >  
so if there is no time for talks !

but even then all orders ... spoken  
about in retrospect and reviewed by all ...  
to find the better answer !

just as there is no democracy or theocracy ...  
since only ... if all can agree >  
the answer can be right !

and only if there is no time there will be >  
temporary solutions used ....  
till a better solution is found !

and should any individual or a group  
not be responsible for our universe >  
not willing to be responsive ...

then this necessity  
will be carried forward with all force !

while there is every freedom to act on your own >  
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !  
because as soon as anybody is excluded  
he will be feeling alienated ....

then arises >>> a criminal association ...

and each organized crime on a world >  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing >  
and what effect this is having on eternity ...

## > genesis <

> the emergence of the first homo sapiens in this universe

..... it happened in another galaxy ....  
more than a billion years ago >

## >>> the suspension <<<

the location > a space ship of the imperial forces on a reconnaissance flight  
for a potential new colony

> the commander and his crew >> being the members of a new religion  
schedule the launching of quantum communicators  
for the posting of fictitious place data intended  
for the imperial center through robot ships .....

this data adhering to the prescribed course !  
as well as some quantum communicators  
for fictional communications ....

as soon as those are on the destination  
they will fake the destruction of the command spaceship

the robot ships will then return  
to the mother ship on the new course >

the other quantum communicators >  
have already been secretly destroyed  
through the removal of the entangled quanta  
in these .... forever ....

therefore it will no longer be possible  
to communicate with the imperial center

today the powers of the imperial center on this spaceship>  
will be dis empowered and deposed on the nearby planet  
only with the possibilities of primitive hunters and collectors

two robot ships will be left on this world >  
to enforce the conditions >

create no signs for any one to see from space  
no settlements .... plantings > markers  
no radio or light ... fire sign development

otherwise they will be every time > be de powered > a method  
the individual lying for hours in terrible pain ....

until they adhere to the conditions !

they should have time>  
for their gruesome slavery methods becoming conscious of !

at this meeting >  
the emperor notifying to his claims >  
as supreme commander and as the owner of the spaceship !

which is countered >  
that everything belonging to the creator of this universe  
and we are just the managers of all !

that this ship was built by millions of hours through slaves  
it being on time .... it will perform a righteous purpose !  
use it for a decent way of life in this universe ....

after this meeting >  
there remain only the emperor and 2 of his adjutants to be deposed of  
since there are some minors of the imperial center > joining  
the new mission> which provides >

that the spaceship diagonally at this present course  
going to a planet known only to them >  
but not by the imperial center >  
through ....

distortions made by the crew  
but this region having been carefully explored >  
providing ...

that the new ones are not found ..... so easily

they could no longer .... stand watching  
the slavery emanating from this empire  
have for years thought of a way  
to be sneaking a way

to live a simple and decent life in this universe!

and this priority for their future security ....  
will from the beginning be their first priority >

they will only create underground settlements  
only collect naturally growing fruits and  
catches of wild fish and ... hunting .....

until in a different galaxy  
they can be sure of not be coming prisoners of this empire again ....

they will only use animal paths for their movements >  
but they will not keep any animals >

since this would be incompatible with their religion  
because animals are no decent .... citizens >  
friends or neighbors !

they will of course not make any lights outside in the night  
and absolutely no power broadcasting of radio waves !

they will for their communications >> their energy >  
use only wiring >invisible > underground .....

because their religion allowing no light at night any ways >  
except for orientation at their home and necessary news >  
no distractions > no entertainment !

should later bigger settlements  
on different continents > islands of their new world ... develop  
then the quantum communicators for news etc

will be equipped with new entangled quanta  
thus ensuring a secure transmission

they will make the spaceship invisible by perfect camouflage  
for the transition use it for their food research + health care

and then later> when new generations have been growing up >  
colonize many other worlds with .....

to better the prospects for their survival !

this >  
the story of the genesis of the modern homo sapiens  
in many galaxies of this universe >

their development of the technology  
for un manned colonization to other galaxies .....

giving ... no other race to this day > the capability to attack us  
as we settle on ..... in principle .... only those galaxies >  
where no other technologically advanced race ....

and because we observe all evolution in our galaxies .....  
long handed in advance ..... each .... even the potential  
of a threat to our way of life .....

the further development of the galactic religion >  
the galactic nation and its institutions in many galaxies  
and of course> the history of the emergence of the .....

council galactic central

being a new meaning >  
because it never is telling any one any thing  
or being told what so ever

but just bringing forth the best solutions  
every one can be agreeing on

this is therefore a documentary > no fairy tale >  
even though for a citizen of this planet >  
it may be sounding like a nightmare .....

since their empire .... their paradise >  
at best a ... hypocritical ... seemingly decent  
and their power position in it ...

the freedom to enslave others >  
their highest priority !

because for people ..... living honorably >  
responsibly ..... is simply unacceptable for them !

the further development ...

## > 10 years after <

after arriving here at our new home ....  
we are preparing ... to live here!

by taking samples of all ... through a planet rover >  
from each plant > animal > vermin > pathogen ....

then we create vaccines > to live healthy  
without diseases ... any deficiency or poisoning !

the new planet ... a little smaller than our original  
therefore everything is easier ... to realize and much easier handling ...

our new sun ... a little smaller too >  
having a rest life time ... we hope almost 10 billion years  
having less UV radiation ... our year is much shorter ...

but as we will be on the border of the tropics and subtropics  
the plants there still having enough time to mature

and because there are always different kinds growing ....  
some thriving in the winter time .... some in spring ... summer or autumn .....  
we will be having no problems !

we explore a place on a river  
the location being in a desert >

but massively fed from a remote mountain range  
where on both sides everything grows in abundance !

on the steep hills on one side ....  
we build an underground settlement in the light tuff  
where already natural caves exist by erosion  
we are digging further inconspicuously  
from these

for our underground settlement .....  
where every morning the sun is shining in ...  
to wake up every one !

then we are working in the work shops until lunch  
afterward .... working outdoors ... getting animals and fish  
until dinner ...

as well > we are having under the protection  
of the trees along the river

the laundry ... baths ... and all big workshops set up  
and the big kitchen ... because there to every thing >  
easier to transport to !

and there ... we as well are eating all together ....  
afterwards only contemplation and discussions with the family ....

the first children of this new world are growing up

and some appropriate .... after their training  
will then colonize other worlds !

we are using the thermo nuclear generators of the robot ships  
to having energy .... until we build bio gas plants  
where all the bio waste will get in there ....

for cooking and preparing hot water!  
for our gas power plant ...

afterward shall the mud again be supplied back to nature  
as a fertilizer!

we do not want to use hydro power for now ....  
until we are sure > that it will not expose our existence

so far > no report from the telescope on our spaceship  
meaning no imperial ships or probes ....

we find crude fibers to weaving ...  
for fabrics and making clothes !

we build an outrigger sailboat to crossing the river ...  
and trips to the nearby coast ... where grass seeds are growing  
and everything other we can use !

to getting all we need .... for the growing population ....

> the end of empire <

we learn from the robot ships ... left at the exile planet >  
that the emperor and his two henchmen ... are death >

and many years later> that by losing the emperors ship >  
the embarrassing dis empowerment on our part ...  
even the empire itself sinking into chaos >  
over all those riots and sabotage >

as the empire now headless > without true knowledge ...  
and character >

every one trying just to savor rulers paradise !

resources squandering > contaminating the environment>  
instigating wars > destroying all >

only for the preservation of their power ...

until only a few > in miserable existence .... remain !  
from this empire will come no danger to us ...

but we know that not ... until much later!

## > the first generation <

the children thrive in this heavenly environment  
we do not have the slightest problem !

we can take on any problem immediately and directly address  
to find a general realization >

the education of the spaceman going ahead as well ...  
only no one really ... wants to get away from here >

therefore we decide > to first develop this world more >  
before some of us leave it ...

to populate some other planet !

## > the commander going his way <

he has developed a way  
for immaterial remote sensing > other worlds  
where higher animals have already developed >  
to serve for the incarnation of our religion .....

he predicts > that he will leave behind his body now for ever  
and will go to another galaxy with out it > only his spirit  
because the distance for manned flight > is much to large !

he will help the native population there in their own system  
developing towards > according to our religion .....

saving them from going into barbaric competitions  
through incarnating him self into the native population !

he informs some of us > of a means to call him  
should we need him ..... or he him self ... us >  
but he can only with his spirit coming back to us >

his body we should bury after his death .....

.... the message ....

on the inter galactic frequency we receive one day  
a wireless message > from a radio amateur ...  
reporting of the end of the empire !

we are considering what to do ?  
we could fly to another position >  
to not directly betray us ...

and reply from there ...  
but what could help this ?  
such a sick population as this there ....  
no man can help with words !

there is not even a possibility  
our intention ... our lives to describe there !  
they would not believe us even >

that there are homo sapiens in this universe!

and why would anyone want to limit itself  
in its power ruling ... for to good of the future ?

if these offenders there  
only just do not want to do this !

we could fly there >  
and what could we do there ?

we could start a war ....  
with these now stake holders >  
could free them > of their stupidity !

but who would want this ?  
we want certainly no war >  
they want ....

only their irresponsible life !  
this now crystal clear ....

so who then wanted to start a war ?  
if not any danger .....

no chance of having any success ???

there is not even a real law and order there >  
not any real religion for homo sapiens !

no conscience > no haze of something other ...  
only endless power play ...

and when we would free those slaves ....  
and selecting a 1000 from the general public  
and then flying them here

we would have 1000 potential tyrants here >  
problems for our future !

there is a treatment for those >

but since they would have to want to first being healthy >  
and which a disease wants to get ... well ?

we thought that it was just >>> the emperor !  
but now we know > that it is also each and every one  
tacking part in this >

because ... we could have taken part in this further >  
in this eternal game of the rulers paradise ...

where only the position of power decide >  
how much does he savor !

how many resources squandered ....  
how much the environment contaminated  
how many people forever tortured to death!

of course ... we will not reply >  
as we never send out radio waves !  
which can leave our world ...

we shudder only ... if we think of all of these !

it is not just about our security >  
it is about the future of this whole universe ....

### 100 years after ....

we have many settlements on our world  
we visit with our vector fin outrigger sailboats  
and deliver key parts ....

we build solar power freighters for inland navigation  
and areas with little wind ....

we have at a waterfall ... far above our river  
a hydro electric power plant ... installed underground >  
and on the cliffs there >

a roof with vegetation on top camouflaging a factory  
for our robot ships and space ship production ...

for ground transport > we build desert rovers >  
with solar powered electric drive ...

of course bicycles ....  
with direct front wheel hub drive !

we stay young through proper eating  
and as well exercise every day in the sunshine ...  
of course because of our satisfaction!  
and because we know ....

to be doing the right thing ....

we use> the thermo nuclear generators >  
from our robot ships etc > after exchange >  
for a long time coming !

for example in the settlement area  
where the weight factor / current output are of no concern

then after centuries using them there > the remains >  
are smashed further by artificial neutron bombardment >  
till these residual isotopes to becoming lead >>>  
nontoxic

over the whole period of time ... the waste heat  
continue to be used or the electricity produced

of course we will mine the uranium > for this to begin with >  
safe > meaning underground > and with mine robots ....

so there will not only be no danger> created for the environment  
but de facto > the radiation dose from this natural source  
even be reduced in the long term

the whole production process of this thermo generators  
and their reuse conversion > will of course be done with robot systems  
and monitored by us via video continuously >

our pcs have ... inclusive monitor >  
a power consumption of < 1 watt equivalent  
because our programs are so optimized >  
that they are only some mbs

and consequently only need a few mhz !

there is only one kind for any purpose  
so there are spare parts and renovation for  
millions of years guaranteed

our lighting fixtures have led > and by over sizing them >  
therefore maximum efficiency > use only a few milli watts >  
under difficult working conditions ... about one watt ....  
and they are functioning some millions of hours

of course we apply sun radiation via mirror deflection  
in our workshops > wherever possible

of course we work normally only in the day time  
and our lighting is for guidance mostly  
in our living places at night ...

1000 year after ....

we scan further along our space environment  
crumble all meteors > which are dangerous to us  
so they fall as star dust only ....

we visit for the first time our world of origin !  
and film the destruction caused by endless wars  
and the exploitation of resources ....

but never make contact with the few survivors  
there because of lack of metals > are living ...>  
dying like in the stone age !

we as well are also making no contact  
with any vermin and predatory animals .....

who simply have no use for our way of life  
are pure creature of instinct ...

slaves to their criminal environment !  
simply atrocious ...

compared with us > where you can not even see >  
that there are people living > because we save each screw >  
every piece of metal .... and reuse every thing !

never make anything out of order  
or build it just for a limited time  
but for an eternity .....

although we seem to have no enemies anywhere  
but just for the esthetics > we camouflage all technology  
laying high voltage dc lines in the river

all the others ...  
can be camouflaged in an emergency!

a million years after ....

our original world ... does not ... have any more people  
on it ... because of the contamination everywhere ...  
the lack of resources and foresight

and because of this hopeless stupidity  
they are gone extinct ... bored to their own death

we have now settled several other worlds in our galaxy  
and through immaterial mind transfer > some other galaxies  
for our life as homo sapiens

there are no wars > no contamination >  
no hunger in our civilization any where

because all ... are part of every thing ...  
all have the possibility

within the line of the universe  
to realize all we want ....

we show our videos ... of our former world  
in social .... political ... and religious lessons !

and no one can believe it >  
that there is such a mentally handicapped population possible !

we exchange ideas via mental visits with the other galaxies ....  
as well our former commander

being the beginning of the council galactic central  
as well the beginning of the galactic nation existing already !  
we continuously contact all via quantum communicators ...

the galactic religion ... the essence of our life > perfected  
seeing any risk for our intelligent life ... long ahead ....  
having an answer for everything !

everyone can be helping to perfect ...  
we all want to live in a paradise for all ...

where there are no victims > no perpetrators >  
no shame > no conceit .... all true and real ....

paradise every where !

one billion years later ....

we are represented in many galaxies >  
by mental transfer ....

through the incarnation in advanced animal bodies !

and over all this time to have our idea  
endlessly proven ... the homo sapiens race !

only there was ... just mean idiot selection  
created by such a stupid idea > as this world here ....

where one idiot with the other competing >  
to all these idiots delight ... in their insanity >  
the great stupidity .... their mass of enslavement !

creating meaningless jobs !  
see house hold delivery of toxins !

people being driven to freak out!  
to preventing any solutions !

see this planet satan here .....

## the further development of the galactic religion

we having been thinking all these years about ...  
how we could protect our way of life against any destruction ...  
so .... we develop our religion further >

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from!

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without conceit !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

> galactic central <

we are creating an information institute  
where all knowledge is collected > organized and analysed

> galactic nation <

is there for all homo sapiens ....  
in all intelligent nations of this universe

> council galactic central <

after many worlds in other galaxies having been inhabited by us  
we develop an institution >

where always some of us in their galactic neighborhood  
are chosen to visit by immaterial exchange and keeping  
the connection to all of us !

receiving information for all proposals and provide expert opinions  
for the improvement of all .... on going ... but never telling any thing  
or being told .... only information to being used if accepted by all ...

galactic foundation

*we are the guardians of creation*

## the homo sapiens ...

being the basis of our civilization  
for our success in eternity

with his never ending wisdom > his total responsibility  
where no one ... no idea ... no solution will be shunned >  
no resource being wasted > no environment being spoiled >  
no security measure left out

where there is no hierarchy >  
because every one is the most important being !  
at our never ending paradise on any world  
in this universe

we at the galactic foundation > are searching constantly  
finding any and all danger to our society  
coming from degeneration and pest

keeping every homo sapiens informed >  
what a difference they are making !

there while any and all danger to our universe  
will be eliminated through >

our galactic pest control program ...

the universe ... can not be an organized crime >  
with its technology > its predatory instinct  
on every world > every galaxy >

yes ... in the whole universe

so ... may not hold people from a responsible way of life  
since this is without responsibility  
since those organized criminals

understanding only their animal instinkt ...

## the law of the universe >

each one citizen can only use his world  
for a purpose of the universe > for creation !  
and not for the destruction of their worlds  
and certainly not for the destruction  
of all responsible life ...

every little child knowing this in our society !  
and everyone can understand it >>>

because they are having a comprehension ...

fellow humans ... should therefore their fellow human >  
to be an inspiration and not an inspiration for this >  
end to your world > but to be keeping it as long as possible  
> meanwhile > all people are so healthy  
and always living healthier!

always freed from any danger  
doing less and less for their material needs  
not this one day throwing away production  
not these hamster wheels >

with those migratory locusts economies  
the end of your world and the end of all intelligent life  
already achieved

a technology may only serve the people  
not for his enslavement > not to being terrified to his end  
not as a drug > because he's not able to stand this reality  
can not bear at all > can not stand

not as a conceit > he would be a success >  
not as a distraction > from reality

but we need homo sapiens > no idiots selection  
for a secure future > for a future at all

so we need the education to a homo sapiens  
not to a suicide assassin > these all are ....

because there is no fundamental difference  
between any Islamic state > and his religion  
or such a satanic state > who puts his delusion through

no difference between such a terrorist president  
or such a freak out > who seeing no other choice  
as just to be shooting around > just like all of them  
terror states always are killing all resistance !

just to not grasp > that this whole world being the problem >  
and no one has a solution!  
nobody wanting a solution ...

the individual ...  
can not be let to enjoying his idiotic egoism  
at the expense of the environment and its fellow human beings

nor can he be enslaved > to a mass of insane >  
to let their masses enjoy idiotic egoism  
to destroying their world and destroying the people  
to this horrible reality today

the only possibility for a sustainable world  
and a society worthy of its people

to an endlessly functioning environment

an endlessly functioning society

be ... that all first

to recognize the need of a valid order!

and implement this > that all >

endless with one another in an open dialogue

every day > always discussing the reality anew

where everyone has a voice > not just the mass >

meaning a majority of insane

as now!

and consequently use this public truth

as a basis for your all decisions made

to realize a real righteous state

to fulfill all valid laws

to living a valid religion

homo sapiens?

only harm can come from them!

to the climate > the resources >

the seas > the land and the future !

of course to every homo sapiens > who knows

that all this harm to his world will end it ...

## the meaning of a human life >

is to work out a decent way of life  
realize it > live it > guarantee it for all !

because only then .... is he a human being !

and therefore there is no meaning here on this world !  
as there is no humane order

because humans only want to live decently  
can be > must be ....!

otherwise they will be dissatisfied with themselves >  
until they can live as humans !

so to achieve this >

the meaning in life of each person ....  
is to make just this happen !

until then ... they feel like losers >  
indeed they are .... in reality!

only by their conceit procurement >  
this is represented as a success >

## eves insane aspiration of the true love ....

thus ... the person she will select > being as in any animal tribe >  
to spoil her immeasurably .... this existing for millions of years  
and until 100 years ago ... this was just inhumane !

but today .... this being the big animal love ...  
straight to be the problem ... because eve still >  
will marry the great pamperers ... materially and or psychologically >

a homo sapiens having not the slightest chance !  
only these clever critters .... trained by her ....

eve ... was and be never so generally suppressed !  
but in a stone age society > roughly equivalent with adam ....

but in this western version > where eve can sit around  
and wait until her requirements of this insane love is full filled >

guarded by a so inhumanity as this insane western society >  
where useless work being created and trained animals > state licensed >

she be the absolute ruler > the tyrant over life and death !  
since she needs no man > biologically speaking .... emotionally  
but man be entirely dependent on eve ....

else nothing will come of him > even with a pope >  
he adores ... yes > must worship mother mary !!!  
otherwise he would never becoming a Pope ....

of course there are exceptions >  
of any outbursts over all this injustice !  
so if a man .... to lock her in the cellar

or he makes his exploitation >  
to have access to a biological necessity !  
he never could work out under humane conditions ...

so eve be .... with her animal demands >  
and no responsibility for the future or humans  
be the cause of this worlds dying .....

and as long as this insanity of the suppression of eve >  
being perpetuated in a single nation ... for selfish motives >

for men .... the world to be put to their death >>>

as long as there will be no rescue for this world  
consequently ... we need of course eves great friend >

the trained predator >  
discarded from all areas of human society !  
because children growing up with predators >  
will be just idiotic offenders ....

they .... of course .... to make no future !

just homo sapiens > the now soooo oppressed ....  
being capable to work on a solution >  
to realize this worlds rescue .....

but those in fact .... can not exist !

how is an eve supposed ?

to care for something other ....  
then savor heir satanic symbiosis fully !  
if no one will constrain her > such as a religion >  
a tradition > a society!

while .... in this country they are so glorified by all >  
because they too .... are just a mentally retarded choice !  
from this it follows ... a mentally retarded world .....

how is some adam ?  
care for something other .... then to savor his satanic symbiosis

if no one here to force him other wise >  
such as a religion > a tradition > a society !

while in this country he is so glorified by all >  
because they too are a mentally impaired choice !  
from this we follow a mentally retarded world .....

how is a free market economy to function ?  
if they may only build rummage > going of next week in the garbage  
while the climate being flipped > squandering the resources >  
environmentally damaging ...

otherwise they will not selling long any thing !

how is there supposed to be justice ???  
in such a satanic world ....

and how should this pest allow ... any homo sapiens ?  
if they can not be in a position to >

even knowing > what was right .... or wrong .....

### as soon as the individual ....

themselves are out of bounds of the general future design  
for example ... because they want to hide their criminal intentions ....  
meaning ... this idiot selfishness .... to further savor just this ....  
or any individual > the responsible > being excluded !

can this be no humanity >  
but a criminal association !

because only when all have part in it .....  
and most importantly ... may be part of this >  
can this be righteous and consequently .... an honorable society !  
and the honor of every one must always be the first priority ....

thus we need all to be heard >  
observe all valid arguments >>>

and on this basis .... meaning this compiled ... public reality >  
make our decisions > our future design !

otherwise this is not a rule of law ....  
but a criminal association ... as usual ....  
this will not be functioning long

see as well the 11th commandment of the galactic religion !

and only having a decent ... honorable future design a true living together  
can prevent disasters > since they take into account all the reality >

where as any criminal association > meaning all of them now >  
end necessarily > because of all these disasters they are creating >  
because they have not ... the reality as their counselor !  
but their fata morgana .... where no water awaiting  
though their equally insane >  
delusion procurement !

## homo sapiens ?

it is not ... that those masses are insane >  
so actually the opposite of rational !

but all of them ? .... competingly criminal ....  
which should be condemned by every law authority !

since they are all ? .... a general danger to this world > since inhumane !  
condemning each other .... to state forced labor >

forcing each other .... to drug selling > toxins > narcotics >  
and buying those ! .... in absence of any thing else to do >

entertainment >>> artificial > visual and hot sounds !  
for the distraction of this gruesome reality .....

traveling to other mass delusional centers !  
or the really big delusional freedom >

the patient nature .... and their " loving " animals !  
the certified freedom from a humanity .....

life should be about human dignity !

about an intelligent life ...

because only if every one is being treated as an intelligent human  
can there be a human civilization long enough to even blink your eye

so ... life should not be a game at ever higher levels  
should not be about > making out of pawns > big players !  
that is simply absurd ...

because the planetary resources will not be there long enough  
for even a million years !

nor the very environment !  
nor an intelligent population ...

because players will not be responsible citizens !  
because their endeavor having just not this very important >  
basic ingredient in there !

so .... we need no highly educated players !

we need responsible entities ... and their capabilities are then used >  
for the security ... the human dignity of all .... for a billion years !

on this planet > and for eternity .... on other worlds ... in other universa

so ... all power emanating from the government should be about >  
to guarding human dignity ....

or every thing will be over in a 100 years !  
its clear to see .... for any homo sapiens ...

## epilog

this population must becoming sane or disposed of!  
there is no alternative for the universe ...

so free and secret majority voting  
must be abolished

and publicly argued on an internet forum  
for solutions where everyone can participate >  
where everyone to put forward a better argument >  
to one for all binding solution present > no mass delusion!

because the majority is always wrong >  
and only a few right and we need a solution >  
we need an argumentocracy!

can some one suggest a better argument ?  
for a responsible life ...

and only a responsible life  
can save this world > no mass delusion !  
is this clear to all ?

because democracy was already wrong  
according to some of the ancient greeks !

so it must be made public > that women are not suppressed  
but the cause of all problems > meaning the problem !

because she only dreams of the destruction of all higher life

so we need the education to being homo sapiens !  
so a galactic university > showing the solutions
